BOOST

PORTUGAL AIR SUMMIT
STARTUP ACCELERATOR PROGRAM

APPLICATION FORM

The largest and leading aeronautical summit in the Iberian peninsula presents a special Startup incubation and acceleration program, where key industry mentors and investors will help startups to develop their projects during and closely promote funding opportunities. These mentors will connect directly with Middle-East stakeholders and, as such, startups will be required to attend the incubation program for a full day (13th) in preparation for a special Pitch opportunity the following day.

Selected startups will get the chance to pitch live, from the Portugal Air Summit stage, in October 14th, to 32.000 people from 60+ countries; and gain direct access to the FuturAvia in Abu Dhabi where they will meet face-to-face with the world's biggest investors in the industry.

Please fill this form to allow us to scout for the startups that will be incubated by the mentors at the Portugal Air Summit, and return it filled out to boost@portugalairsummit.pt. Please fill carefully.
